7th PAK-TURK

INTERNATIONAL CONFERENCE ON EMERGING TECHNOLOGIES IN THE FIELD OF SCIENCES AND ENGINEERING

(14-15 October 2024)

About Conference

The Pak-Turk Conference series is a technical event which focuses on the advancement in emerging technologies. The purpose of this conference is to provide a platform for researches, academicians and practitioners to make them familiar with recent advancements in the various fields of engineering and sciences. This conference accepts wide range of papers to encourage young and experienced researchers to present their work and also the possibility of initiating mutual collaboration with international repute researchers and industry personnels from Pakistan and Türkiye.

CALL FOR PAPERS!

All submissions will be peer reviewed before acceptance. Selected papers (full length) will be published.

Organized By:
University of Wah, Wah Cantt, Pakistan.

CONFERENCE THEMES

▶ **Engineering:** Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering

▶ **Computer Sciences:** AI, Cyber Security, Data Science, Internet of Things

▶ **Natural Sciences:** Biotechnology, Chemistry, Environmental Sciences, Mathematics and Physics
